

	<b>Director of Project Management</b>		<b>Posting Date:</b> January 9, 2026
<b>Position Type:</b> Full-Time	<b>Direct Supervisor:</b> Chief Operating Officer	<b>Department :</b> Operations	<b>Location:</b> Newtown Square, PA

### About Us

We deliver market-leading infrastructure solutions that evolve rapidly. That's how we continually enable new possibilities for our clients and communities. We provide noise walls, retaining walls, and other precast structures for the transportation, energy, and construction sectors across North America. We are researchers, engineers, manufacturers, and project managers who solve construction challenges with complete systems and solutions backed by technical expertise, integrated services, and a customer-first approach. Come join us in building the critical infrastructure that connects our communities.

### Position Summary

We are seeking a dynamic Director of Project Management for US Operations to lead our project teams and ensure the successful delivery of our infrastructure solutions. This pivotal role is based in the United States and offers an exciting opportunity to shape the future of noise barrier technology while aligning with our company's mission of excellence and innovation.

### Responsibilities

- Lead and oversee all project management activities across US operations to ensure timely and within-budget delivery.
- Develop and implement strategic plans to enhance project efficiency and effectiveness.
- Collaborate with senior leadership to align project goals with company objectives.
- Manage stakeholder relationships including clients, suppliers, and internal teams.
- Drive process improvements to optimize operational workflows.
- Ensure compliance with safety standards and regulatory requirements.
- Mentor and develop project management teams to foster professional growth.
- Monitor project performance metrics and report progress to executive leadership.

## Qualifications

- 15 – 20 years of Construction / Project Management is required.
- Bachelor's degree in civil engineering or construction Management is required.
- PMP certification is required.
- Team player with a high level of dedication and proven experience in leading, directing and coaching a team of project managers is required.
- Must have a valid driver's license with a reliable vehicle.
- Broad technical background and strong technical aptitude (i.e., conversant with construction drawings, specifications, codes, procedures, and standards.
- Knowledge of contract law.
- Construction and Precast experience is an asset.
- Strong Proficiency in Outlook, Word, Excel, Project, and Adobe. (AutoCAD is a plus)
- Proficiency in English.
- Strong organizational and planning skills.
- Excellent written and verbal communication skills.
- Attention to detail and problem-solving skills.
- Excellent time management skills and ability to multi-task and prioritize work.

## Why Join Us?

As part of the EKHO family, we offer more than just a job, it's a place to build a career. We value integrity, innovation, and inclusion, and we're committed to helping our team members grow. If you're ready to make an impact and be part of a forward-thinking infrastructure leader, we'd love to hear from you.
