

Supply Chain Manager – Newtown Square, PA

Company Overview

EKHO Infrastructure Solutions (EIS) is the corporate entity established to oversee a collective group of companies that provide vertically integrated engineered solutions to the Canadian and the U.S. construction marketplace. Boasting 40+ products manufactured across seven North American facilities, EKHO is a leading North American supplier of Noise Barriers. Our extensive experience and diversification into new market sectors and product categories is how we maintain our position and reputation as a premier employer. As our operations grow, we find even more ways to contribute to the critical infrastructure that completes our communities.

At EKHO Infrastructure Solutions, our people are the cornerstone of our success. With a diverse team of over 400 professionals across North America, we foster a culture that celebrates individual strengths and encourages collaboration. Each of our companies maintains its unique identity, yet together, we share a unified vision: to create opportunities and find synergies across our business portfolio to help build smarter infrastructure. Our commitment to innovation is driven by the collective expertise and passion of our team, making EKHO not just a workplace, but a community dedicated to shaping the future of construction

Summary

We are seeking a highly skilled Supply Chain Manager to oversee and optimize our supply chain operations at EIS. This pivotal role based in the US involves managing procurement, logistics, inventory, and production planning to support our mission of delivering top-quality noise barrier solutions.

Key Responsibilities

Team Leadership & Development:

- Lead, train, and manage a team of 5 purchasing professionals.
- Foster a collaborative and high-performance work culture.
- Conduct regular performance evaluations and provide coaching for team development.

Strategic Sourcing & Procurement:

- Develop and implement procurement strategies that align with company goals and
- production requirements.

- Identify and negotiate with suppliers to ensure competitive pricing, quality, and
- delivery timelines.
- Monitor market trends and industry best practices to drive cost savings and
- efficiency improvements.

Vendor & Supplier Management:

- Establish and maintain strong relationships with key suppliers and vendors.
- Evaluate vendor performance regularly and ensure adherence to contractual
- agreements.
- Resolve supplier issues such as delivery delays, quality concerns, or disputes in a
- timely and professional manner.

Inventory & Material Management:

- Oversee the management of inventory levels to ensure materials are available when
- needed while minimizing stock.
- Collaborate with production, project management, and logistics teams to forecast
- demand and plan procurement schedules accordingly.
- Track stock levels, and trigger restocking.
- Develop Key performance indicators (KPIs) to monitor success.

Cost Control & Budgeting:

- Develop and manage the purchasing budget, ensuring that spending aligns with
- departmental and organizational financial goals.
- Analyze purchasing data to identify opportunities for cost reduction and process
- optimization.
- Understand transportation costs, to improve cost and efficiency.

Process Improvement:

- Continuously assess and improve procurement processes for efficiency, accuracy,
- and compliance.

- Implement and maintain purchasing policies, procedures, and best practices.
- Forecast demand and predict supply chain disruptions.
- Implementing new processes, technologies, or strategies.

Reporting & Compliance:

- Prepare and present regular reports on purchasing activities, supplier performance, inventory status, and cost savings to senior management.
- Ensure compliance with company policies, industry regulations, and environmental sustainability practices.

Qualifications

- Minimum of 10 years of experience, with at least 5 years in a managerial role within operations, manufacturing or procurement.
- Strong understanding of supply chain management.
- Proven experience managing a team.
- Bachelor's degree in Supply Chain Management, Business Administration, or related field (preferred).
- Professional certifications such as CPIM (Certified in Production and Inventory Management) or CPSM (Certified Professional in Supply Management) are a plus.

Skills & Competencies:

- Strong negotiation, communication, and interpersonal skills.
- Proficiency in ERP systems and procurement software (e.g., SAP, Oracle, or similar).
- Advanced knowledge of supply chain logistics, inventory management, and procurement best practices.
- Strong analytical skills with the ability to identify cost-saving opportunities.
- Ability to work in a fast-paced, deadline-driven environment.
- Strong leadership skills and the ability to motivate and guide a diverse team.
- Must have a valid driver's license and valid passport as some travel may be required.

Why Join Us?

As part of the EKHO family, we offer more than just a job, it's a place to build a career. We value integrity, innovation, and inclusion, and we're committed to helping our team members grow. If you're ready to make an impact and be part of a forward-thinking infrastructure leader, we'd love to hear from you.
